Objective

MCA student with a strong foundation in full-stack development and a growing interest in Machine Learning, seeking opportunities to build scalable, intelligent software solutions while continuously enhancing my technical expertise and growing into a skilled software engineer.

Education

Vivekananda College of Engineering and Technology, Puttur Master of Computer Applications (MCA)	2025–Present Pursuing
Government First Grade College Carstreet, Mangalore Bachelor of Computer Applications (BCA)	2022–2025 CGPA: 9.49
Government Pre-University College, Gurupura Pre-University (PU)	2020–2022 Percentage: 95.5
Government High School, Polali SSLC	2017–2020 Percentage: 81.12

Projects

AuraFit – AI Fitness & Nutrition System

Built a full-stack fitness application (Next.js, Tailwind, FastAPI) utilizing custom Machine Learning models to analyze biomechanics and predict fitness milestones dynamically. Integrated automated workout generation, an algorithmic exercise directory, and visual activity heatmaps to track user consistency.

 github.com/KeethuKotian/AuraFit.git

NoticeHub - Digital NoticeBoard ERP System

Engineered a comprehensive campus communication system with Next.js and MySQL. Features include role-based authorization, targeted departmental notices, file attachments, and a secure JWT authentication flow.

 github.com/KeethuKotian/NoticeHub.git

GroupConnect

full-stack, real-time chat application designed to provide secure, instant messaging across various chat rooms. It offers an intuitive and dynamic user interface with modern design elements, paired with a robust backend to handle real-time messaging, file sharing, and secure user connections

 github.com/KeethuKotian/GroupConnect.git

Project Management System

Developed a responsive project management platform with task tracking and role-based access control. Integrated Razorpay payment gateway and secure JWT authentication.

 github.com/KeethuKotian/Project-Management-System

Technical Skills

Languages: Java, JavaScript, Python, C

Frameworks & Libraries: Spring Boot, React, Next.js, Express.js, FastAPI, Scikit-Learn, Tailwind CSS, Prisma

Databases: MongoDB, MySQL, Redis

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Docker

Concepts: Data Structures & Algorithms, Object-Oriented Programming, REST APIs, Machine Learning, NLP, JWT, WebSockets

Certifications

Software Engineering Job Simulation — JP Morgan Chase & Co. (2025)

Data Analytics Job Simulation — Deloitte (Forage) (2026)

Build with AI Bootcamp — Google for Developers & H2S (2026)
